

Pledge to Promote Sustainable Practices

We, the students, faculty, and staff of BML Munjal University, solemnly pledge to uphold and promote sustainable practices in our daily lives and within our university community.

Together, we commit to:

- **Protect and Conserve Resources:** We will use water, energy, and other natural resources responsibly, ensuring their conservation for future generations.
- **Reduce, Reuse, and Recycle:** We will minimize waste by reducing consumption, reusing materials, and actively participating in recycling initiatives.
- **Support Green Initiatives:** We will encourage and participate in activities that enhance environmental sustainability, such as tree plantation drives, clean energy projects, and eco-friendly research.
- **Promote Sustainable Transportation:** We will opt for carpooling, public transportation, cycling, or walking to reduce our carbon footprint.
- **Advocate for Awareness:** We will educate ourselves and others about the importance of sustainability and inspire positive environmental action within and beyond our university.
- **Adopt Responsible Consumption:** We will make mindful choices that prioritize locally sourced, eco-friendly, and sustainable products.

By taking this pledge, we affirm our responsibility to be custodians of the environment and agents of change. Together, let us strive to create a cleaner, greener, and more sustainable future for all.

I have read and understood the pledge to promote sustainable practices and promise to abide by the same.
